Many people carpool, vanpool, ride the bus, bike, or walk instead of driving alone to get to work. Using one of these transportation options is a great way to help ease traffic congestion, reduce air pollution, and cut down on parking demand. Since one concern that commuters have is how to get home in an emergency, Cherriots Rideshare provides a free emergency ride home to eligible commuters.

Employees of participating organization are eligible for the Emergency Ride Home program through an active Drive Less Connect.com account. Just follow these directions to create a Drive Less Connect profile and enroll in Emergency Ride Home.
